

UI/UX Designer

We are seeking a member of the team who can come onboard and act as the 'glue' that binds the business vision from the product owner to a developed solution that is available and accessible to our end users across their chosen device.

Working as part of a digital product team, you'll be tasked with leading on and creating brilliantly simple, innovative and intuitive digital products that blend effortlessly with our member's lives. You'll be developing new ideas for our member journeys, breaking down the traditional barriers and pioneering the Waqf and Islamic social finance space. You'll iterate and refine these ideas through sketching and wireframing before working on brilliantly intuitive designs that show what our customers will see.

If you're an experienced UX designer who wants to be a part of helping us do that, this could be the role for you.
